Guest Wi-Fi Access

Network SSID: *GuestWifi*

1. Connect to *GuestWifi* network using your device's Wi-Fi settings.
2. Once connected, your default web browser should automatically open and take you to the *Guest Portal Sign On* webpage. If this doesn't happen, forget and re-join *GuestWifi*.
3. If you have a Vertiv account, log in with your **firstname.lastname** and **Vertiv password**. Otherwise, click **Don't have an account?** below the *Sign On* button.

4. Fill out the registration form.
5. Scroll all the way down on the Acceptable Use Policy (required) and click the **checkmark** to agree to the terms.
6. Click **Register**.
7. Check the email provided for your temporary **username** and **password**. Enter these in the *Guest Portal Sign On* page.
8. Click on the **Sign On** button. Once completed, you will have internet access via the Guest Wi-Fi.

Note that this account is only valid for 24 hours. Once it expires, you will need to complete the account creation process again.
